PRODUCT DESCRIPTION

Overload relay 0.32...1.25 A Electronic For motor protection Size S00, Class 10E Contactor mounting Main circuit: Screw Auxiliary circuit: Screw Manual-Automatic-Reset Siemens 3RB3016-1NB0 is the exact orderable reference for Overload relay and has been verified as an active product on Siemens Industry Mall. It belongs to SIRIUS 3RB electronic overload relays. Recorded manufacturer technical characteristics include official_lifecycle: PM300:Active Product; official_siemens_family: SIRIUS 3RB electronic overload relays. For an RFQ, use the complete part number so the required electrical rating, hardware revision and compatible accessories remain exact. The linked Siemens data sheet should be checked against the application, supply system, environmental conditions and applicable standards before final engineering selection.

MANUFACTURER DOCUMENTATION

No manufacturer document is linked because exact-SKU or compatible-family evidence has not been recorded.

Document status: This is an InduMarket product specification summary, not a manufacturer-issued datasheet. It is generated from the catalog record for the exact part number. Any linked manufacturer document passed the SKU-compatibility evidence gate. Confirm ratings, compatibility, certifications and any successor reference before ordering.
