PRODUCT DESCRIPTION

This is a Vigi add-on module for ComPact NSX 400/630 that provides an earth-leakage protection. It is used for 4 poles circuit breakers. The operational rated voltage is between 200 and 440 VAC 50/60 Hz. The earth-leakage sensitivity is adjustable from 30 mA to 30 A. It is installed directly on the device terminals and directly actuates the trip unit in case of earth-leakage default. This Vigi add-on module is self-powered internally by the distribution-system voltage, even is supplied by only 2 phases. It is compliant with IEC 60947-2 standard, annex B. Schneider Electric LV432465 is the exact active manufacturer reference for Earth-leakage add-on protection module VigiPacT, ComPacT NSX 400/630, 200VAC to 440VAC, 30mA to 30A, 4 poles. It belongs to the ComPacT NSX400...630 ComPact NSX400...630 range and is used as vigi add-on in industrial electrical and automation systems. Official technical characteristics include Range of product: ComPacT NSX400...630 ComPact NSX400...630; Device short name: VigiPacT; Product or component type: Vigi add-on; Device application: Wiring; Range compatibility: ComPacT ComPacT NSX400 circuit breaker ComPacT ComPacT NSX630 circuit breaker ComPact ComPact NSX400 circuit breaker ComPact ComPact NSX630 circuit breaker; Poles description: 4P; [In] rated current: 400 A 630 A; Earth-leakage protection class: Class A Class AC. This current product is listed as a direct manufacturer-recommended replacement for one or more discontinued Schneider referenc

MANUFACTURER DOCUMENTATION

No manufacturer document is linked because exact-SKU or compatible-family evidence has not been recorded.

Document status: This is an InduMarket product specification summary, not a manufacturer-issued datasheet. It is generated from the catalog record for the exact part number. Any linked manufacturer document passed the SKU-compatibility evidence gate. Confirm ratings, compatibility, certifications and any successor reference before ordering.
