PRODUCT DESCRIPTION

Siemens 6AG1278-4BD32-4XB0 is an exact-order-code industrial automation module. Siemens' official product description states: SIPLUS S7-1200 SM 1278 IO-Link based on 6ES7278-4BD32-0XB0 with conformal coating, -20?+60 °C, signal module SM 1278 4xIO-Link master IO-Link master V1.1 This listing is for exact part-number identification and RFQ matching in Egypt, the GCC and MENA. It is available on request; no stock or fixed lead-time claim is made. Confirm the exact configuration, compatibility and current lifecycle against the cited official Siemens evidence before ordering.

RECORDED SPECIFICATIONS

| Identity verification | Exact Siemens Industry Mall product record |

ADDITIONAL SPECIFICATIONS

|                           |                                                                                               |
|---------------------------|-----------------------------------------------------------------------------------------------|
| Selection requirement     | Confirm exact system, hardware release, firmware and electrical compatibility before ordering |
| Communication protocol    | IO-Link                                                                                       |
| Ambient temperature range | -20?+60 °C                                                                                    |

Official product description

MANUFACTURER DOCUMENTATION

No manufacturer document is linked because exact-SKU or compatible-family evidence has not been recorded.

Document status: This is an InduMarket product specification summary, not a manufacturer-issued datasheet. It is generated from the catalog record for the exact part number. Any linked manufacturer document passed the SKU-compatibility evidence gate. Confirm ratings, compatibility, certifications and any successor reference before ordering.
