PRODUCT DESCRIPTION

It is an extended black rotary handle for Compact INS40 to INS160 switch disconnectors. It is suitable for isolation and it is used for standard applications. This rotary handle is a front control accessory. This extended version makes possible to operate devices installed at back of switchboards, from the switchboard front. The degrees of protection are IP55 and IK08. It may be locked in the OFF position by one to three padlocks, hasp diameter 5 to 8 mm (not supplied). Schneider Electric LV428941 is the exact manufacturer reference for Extended Rotary Handle for Front Control, Compact INS40 to INS60, Black in the INS40...160 family. Recorded technical characteristics include Handle Color: Black; Impact Protection: IK08; Mounting Location: Front; Ingress Protection: IP55; Padlocking Position: OFF. For an RFQ, use the complete part number LV428941 so the required rating, configuration and compatible accessories remain exact. Review the linked manufacturer data sheet against the supply system, load, enclosure, environmental conditions and applicable standards before final engineering selection. This listing is intended for project, maintenance and replacement enquiries across Egypt, GCC and the wider MENA region; it does not claim local stock.

RECORDED SPECIFICATIONS

Handle Color	Black
Impact Protection	IK08
Mounting Location	Front
Ingress Protection	IP55
Padlocking Position	OFF
Manufacturer part number	LV428941

ADDITIONAL SPECIFICATIONS**MANUFACTURER DOCUMENTATION**

No manufacturer document is linked because exact-SKU or compatible-family evidence has not been recorded.

Document status: This is an InduMarket product specification summary, not a manufacturer-issued datasheet. It is generated from the catalog record for the exact part number. Any linked manufacturer document passed the SKU-compatibility evidence gate. Confirm ratings, compatibility, certifications and any successor reference before ordering.
