PRODUCT DESCRIPTION

This soft starter can feed 3-phase asynchronous motors in supply line or delta connection. It has a rating of 62A and 230V to 440V, a rated power up to 30kW (400V to 440V in supply line) and up to 55kW (400V to 440V in motor delta connection). It is designed for simple and complex machines such as centrifugal and piston pumps, fans, screw compressors and material handling equipment. Slim form factor improves versatility; allows mounting in frames of any kind of machines. It features an Integrated bypass, this reduces noise and decreases heat dissipation. Compatibility with SoMove software allows configurations and settings to be easily transferred, meaning spares can be quickly installed. It provides smooth starting for your machinery, avoiding mechanical stresses and extending their service life.
